Principal's Message

Dear Parents and Guardians,

As the 2021-2022 school year draws to a close, I want to express my deepest appreciation for all your support. With the change in health restrictions, we've been able to have parents assist more which has helped greatly. We look forward to celebrating our 90th Anniversary on Tuesday, June 7, with all our school and parish family. The *Songs of Spring* concert will highlight the outstanding work created in our fine arts program. It's a time to reconnect and celebrate!

Class lists are being finalized, and parents with children in double classes will receive a letter early next week. In addition, our staffing changes will be announced next week.. There are still a lot of end-of-year events to connect. Please join us for our last Farewell Mass on June 15 at 9:30 and the upcoming primary and intermediate talent shares. *Step Up* on June 15, is an opportunity for the students to meet their new teachers and get excited for the new year. Our new Kindergarten students (*#futuresaints*) will also be having their orientation event at the same time. We are renovating the library to become a new classroom, and will set up a 'Book Nook' to continue offering library services next year.

To our Grade 7 students and those who are leaving St. Mary's in other grades, we wish you success and happiness in your transition to your new schools. We thank God for the opportunity to learn. May you be willing to use your Christian attitude and knowledge to create a better world and a more perfect and just society.

The school will be open for one hour only on June 28. Term 3 reports will be released electronically. The classroom teachers will be available if you choose to send your child to school the final hour.

Have a safe and relaxing summer holiday.

Yours sincerely,
Brenda Krivuzoff, Principal

Virtues In Practice

Helping Children Grow Closer to Jesus

St. Mary's school community has now completed the "Year of Charity" in our Virtues program. Students learned about the importance of intentionally developing "habits of doing good". Teachers have decided to continue this program; next year we will celebrate the "Year of Faith".

Saints Health and Physical Education

May has been another month of learning and growing through movement and goal setting. Our PHE program has complemented the Athletics program by covering the essential skills of track: sprints, distance, and relay racing. Kindergarten and Grade 1 students enjoyed sprinting 100 meters and it was wonderful to see their excitement grow as they started to set goals and ask to keep running! A delegation of Grades 3-7 students will be representing St. Mary's in the CISVA track and field meet. Best of luck to all athletes and big thanks to the volunteer coaching staff!

As we finalize our summer plans, children are encouraged to spend as much time outdoors and in nature as possible! There are many camps, clinics and clubs to join to keep children active. As always, programs that are age-appropriate in their training and competition, and that respect the child as a whole person: physically, socially, emotionally, creatively, intellectually, and Spiritually are of tremendous value.

On a final note, Collingwood Park, which has become the pinnacle location for PHE classes, is doing a survey about park renewal. The **survey is available until June 3rd, 2022** at: shapeyourcity.ca/collingwood-renewal. Some of the features we appreciate about Collingwood Park for PHE are: wide open spaces to play games, not broken up with obstacles such as pathways, benches, trees, etc., washroom facilities, and a basketball court and baseball diamond. The drainage at the baseball diamond needs remediation. Community gathering places, while worthwhile, also result in excessive garbage at the park. Your input to the survey can help our PHE, DPA, and Extra-Curricular sports programs.

I wish everyone good health and look forward to the celebrations and vibrant community life that June brings. Ms. Kozak

We are excited to see our growth and development in Track & Field accumulated over the past couple of years. Great work, SAINTS!

Bike to School Week

Congratulations to the students, parents, and staff who participated in Bike to School Week May 30-June 3. We tracked active travel all week: 60 students and staff biked, skateboarded, and our walkers brought us up to 147 trips!

Bike to School Week fits in well with our curriculum and builds on the green initiatives in our school. There are also physical and mental health benefits to cycling. With our success this year, I'm hopeful to continue to build on the program. I have requested a HUB cycling course for the future.

Incentive prizes were awarded to individuals. Congratulations to the Gr. 4 class who had the most active travel during the week. They won a field trip. Students are encouraged to continue to bring their bikes, scooters, etc. for the rest of the year.
